

## SPORT AND I

Hi! My name is Rafael and I'm 13 years old. You would expect that a boy of my age would like playing football and doing sport. But no, I prefer to have a good talk with my friends and listen to music. You can say that I'm not an ordinary boy. I don't really like playing some ball games like football, basketball, handball,... I like playing badminton, table tennis and volleyball. I don't know if I like extreme sports, because I've never tried any. Sometimes when I see people jumping off a plane, I ask myself if I had the courage to do that, but I think I would like to try extreme sports because of the adrenaline it gives you!
